

100s of Devices, Up to 6 Log₁₀ Efficacy¹, 30 Seconds

Electronics | Wearables | Tools | Supplies | Personal Effects

Model: RDS-32a w/ built-in versatility as a Desktop or Mobile Unit supporting Wired & Wireless Equipment

The “RDS” provides a chemical-free rapid disinfection of 100’s of sensitive Electronics, Wearables, Devices, Tools, Personal Effects and Packaged Supplies in less than 30 seconds, with guaranteed results every time.³

Why take 3-5 minutes to do what can be done in 30 seconds?

The RDS-32a is the current day solution to automating what was previously a multi-step, time-consuming, error-prone, manual process. An automated disinfection process increases participation, eliminates errors, reduces supply costs and lessens environmental waste.

Nurse More – Stress Less.

Mobile phone’s, tablets and stethoscopes are not the only challenge. There are hundreds of items large and small that require daily disinfection for safe handling and patient use. Automating the disinfection process from Minutes to Seconds creates labor savings allowing more time for patient care.

Innovate to Eliminate Waste.

What was once tagged as patient supply waste due to the potential for cross-contamination, may now be instantly decontaminated and returned to stock. Our “PSRP” program produces annual million \$\$ savings in the recovery of unopened packaged patient supplies and medical waste disposal costs.

- THE “RDS” DIFFERENCE -

- Up to 6 Log₁₀ Efficacy or 99.9999%¹
- Fast Automated Throughput fits 100s Items
- M²D Technology Inside Confirms Efficacy³
- For both Wired & Wireless Devices
- 12 VDC Battery or 110VAC Power
- Exclusive 3-Year Factory Warranty
- Compliant: Made in America Act

- INDEPENDENTLY TESTED & VERIFIED -

EPA Certified Test Laboratories

¹ EPA Test Standards: ASTM E1153, ATCC-BAA1556, ATCC-3513563, ATCC-4255595, ATCC-3279148 – SARS-CoV², Candida Auris, MRSA, VRE, CRE, C.diff, and other major pathogens

² EPA Certified Lab Testing: NG3513563, NG4255595, NG3279148, NG33592, NG43598, NG6538, NG8769, NG16022, NG15597-81

³ Patented Dosage Monitoring System guarantees decontamination efficacy

⁴ Meets and Exceeds FDA Guidelines for Operation and Safety, dated April 2020

Hand Hygiene & Disinfection in 30 Seconds

Model: RDS-32a-SS

All-In-One Rapid Sanitation Station

provides a One-Stop, 30-Second solution for Hand Hygiene and the Disinfection of Patient Care Electronics, Tools, Packaged Supplies and Personal items.

The combination of disinfection modalities is the answer to a fast, efficient standardized protocol resulting in increased hand hygiene compliance and the efficient disinfection of all shared non-critical objects in health care.

Patented M²D Technology guarantees Lab Certified results. The RDS-32a-SS can be deployed as a stationary station or mobilized for shared use, room-to-room or department-to-department.

[14] Phones, Tablet, Laptops, Keyboards...

Large Capacity Standardizes the Disinfection Protocol for Hand-Tools and Sensitive Electronics

Powered Respirators & Imaging Equipment

Proven effective by independent laboratories and customers including top 50 ranked hospitals, long-term care centers and numerous state and federal facilities, business and industry. The RDS distinction of capacity, performance and efficiency places the system in a unique class alone.

The RDS-32a²⁴ can deactivate more pathogen strains, on more items, to the highest level of efficacy, in the shortest cycle time, than any other like product on the market today. All backed by an industry exclusive 3-year warranty.
